## REPUBLICANS' CAMPAIGN.

Senator Platt Foreshadows the Possible Platform This Year.

His Views on Bimetallism, Colonial Government, and What the American People Will Do.

New York, Feb. 19.-The Herald quotes Senator Platt of New York as saying in an interview: "While the Republican platform upon which we will make our next campaign has not been definitely decided upon, it is pretty well understood that we will make our fight on the line of policy of the present administration. The campaign is being shaped every day, and the Democrats are entitled to all the comfort they are able to derive from what they seem delighted to call Republican mistakes.

The ridiculous exhibition of incapacity on the part of the Democratic lea ers while the financial bill was pending in Congress was sufficient to convince all observing persons that they are hardly capable of conducting the business affairs of this great nation in a manner acceptable to the American

'I understand the Democratic leaders are declaring that we weakened on the silver question by adopting a bimetallic amendment to the financial bill in the Senate and they propose to make that one of their campaign issues. They also assert that they will draw heavily from our forces if the refunding provision of the financial bill becomes a law. Some of my constituents are troubled about that bimetallic amendment, and I have received several letters on the subject asking if the Republicans had not lowered their colors to the silver hosts by the adoption of that amend-ment. My reply has invariably been that there was no lowering of colors to the silver forces or no substantial deviation from the former policy of the

Republican party relative to the subject of bimetallism.
"The Senate amendment to the financial bill, which was offered by Senator Aldrich at the instance of the comnittee on finance, was simply a declaration or a reaffirmation of the party principles on that subject as laid down in the last national platform of the Republican party.

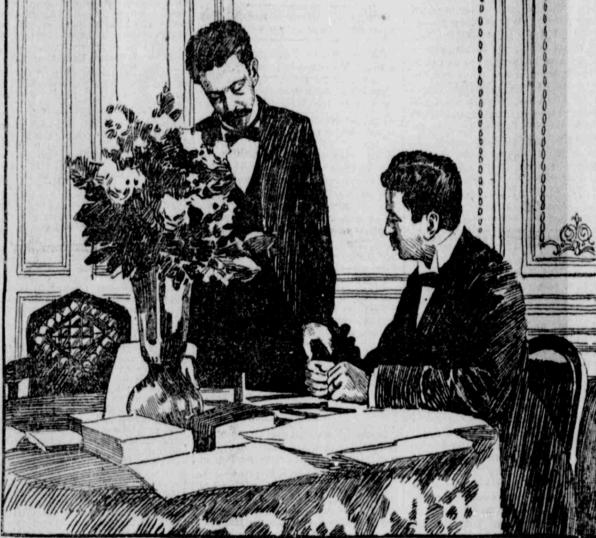

"As to our colonial policy, that is being formed now, and I have not given the subject sufficient investigation to discuss it at this time. Our policy to-ward Hawaii is pretty well defined, and before the coming week expires we may have a pretty good idea what we in-tend to do with regard to Puerto Rico. in the discussion of the Puerto Rico question the whole question of our colonial possessions will come up, and as there is a wide difference of opinion on the subject, it would be premature to attempt to build a party platform so far in advance of the meeting of the

national convention.
"At the proper time President McKinley and Senator Hanna, chairman of the national Republican committee, will call a conference of the party leaders, with a view to determining upon what lines it may be deemed advisable to make the campaign. I have not been consulted by either President Mc-Kinley or Mr. Hanna on the subject, and I don't know that I shall be, but my interest in the success of the party induces me to try and keep posted as to what is going on within our lines, and when I get a chance I take a peer into

the enemy's camp. "I deprecate everything that savors of overconfidence in a political contest, and therefore I am not going to follow the example of the Democratic leaders by making a lot of rash predictions as to the future. In my judgment, the majority of the people in this country are satisfied that their interests are better protected by the Repub lican party than they would be if the administration were turned over to the Democrats. I rely upon the intelligence of the American people to choose be-tween McKinley and Bryan."

Bad Silver Dollars.

Toledo, O., Feb. 18 .- Through the arrest of George E. UPRISING IN POLAND. What Russia May Expect in Case

War with England. Chicago, Feb. 19 .- Leaders in Polish national circles of this city say there is a secret national Polish league, which extends throughout Europe and America, and that it had existed not only for fourteen years, but ever since the breakup of the last struggle for Poland's independence in 1863. One of the leaders said:

The secret organization has not been

plotting against any government for the freeing of Poland by force of arms r any other method. During the last ew weeks the Polish national organizations in this city which are such have no direction with the secret have been receiving information that the Russian government has resumed persecution of the Poles, and that wholesale arrests are being made in Warsaw, the seat of the so-called cen-tral committee of the national league. The league began a spirited tion December 9, of last year, when a circular was issued from Warsaw, appealing to all Poles to equip themselves both mentally and physically so that in case of need they might be ready to serve the cause of freeing Poland. The circular called on all Poles to continue the agitation for Poland and to study and propagate Polish national spirit. "Since the publication of the circular, books and pamphlets which, because of their intense Polish patriotic expres sions, are prohibited in Poland by Russia have been printed in Chicago and

other cities, sent to Europe, placed in the hands of agents of the league and distributed in Poland."
In speaking of the Polish league and f the recent arrests in Lemberg, Frank

"We have been receiving information about the numerous arrests in Warsaw, but that arrests have been made in Lemberg is a surprise to us. All we can say is that the coming events cast their shadows before them. That there is secret Polish national government or league, with a seat in Warsaw, is true and public. Who the members are I cannot tell you. The plan is to have a general uprising in Poland in case of war between Russia and England, and is in line with that plan that many Poles are being recruited into English egiments from Warsaw and laces in Poland and sent, not to the Transvaal, as some correspondents would mistake, but into Asia, where the first clash is expected with Russia. Of course, men from Austrian Poland would assist their fellow countrymen, and that may be a reason for the arrests."

THE WHOLE & RET

Of the Remarkable Success of a Remedy for Indigestion and Stomach Troubles. A new remedy which may revolution. ze the treatment of stomach troubles has been placed before the public and has been placed before the public and pears the endorsement of many leading physicians and scientific men.

This preparation is not a wonderful discovery nor yet a secret patent medicine, neither is it claimed to cure anything except despaying indication

anything except dyspepsia, indigestion and stomach troubles, with which nineenths of our nation are more or less The remedy is in the form of pleasant asting tablets or lozenges containing egetable and fruit essences, pure asepc pepsin (free from animal impuri-es) Golden Seal and disstase. They re sold by druggists under the name if Stuart's Dyspepsia Tablets.

Many interesting experiments made with these tablets show that they possess remarkable digestive power, one grain of the active principle in one of Stuart's Dyspepsia Tablets being sufficient to thoroughly digest 2,000 grains of lean meat, ergs, catmeal or similar wholesome food. Stuart's Tablets do not act upon

the bowels like after-dinner pills and cheap cathartics, which simply irritate and inflame the intestines, without havng any effect whatever in curing in-If the stomach can be rested and assisted in the work of digestion it will very soon recover its normal visor, as

no organ is so much abused and over-worked as the stomach. This is the secret and the whole secret of the re-markable success of Stuart's Dyspepsia Tablets a remedy practically unknown a few years ago and now the most popa few years ago and now the most pop-ular, safest and most widely sold of any treatment for stomach weakness. This success has been secured en-tirely upon its merit as a digestive. are and simple; because there can no stomach trouble if the food is

digested

Stuart's Dyspepsia Tablets act entireompletely, so that it can be assimilated into blood, nerve and tissue.

Every drop of blood, every bone nerve and tissue in the body can be renewed in but one way, and that is from wholesome food properly digested. There is no other way, and the idea that a medicine in itself can purify the blood, or supply new tissues and strong nerves is ridiculous, and on a par with the fol-de-rol that dyspensia is a germ disease or that other fallacy, that weak stomach which refuses to digest ood can be made to do so, by irritating and inflaming the bowels by pills and eathartles

Stuart's Dyspepsia Tablets cure dys. pepsia water brash, sour stomach, ca-tarrh of the stomach, gas and blosting after meals because they furnish the digestive power, which is the one thing that weak stomachs lack and unless that lack is supplied it is useless attempt to assist it by the use of tonics."
